Provide detailed information on your search topic:

- In your own words, describe in detail the concepts or subjects you want us to search.
- Include synonyms, keywords, and acronyms. Define terms that have special meanings.
- For Chemical Structure Searches Only
Include the elected species or structures, keywords, synonyms, acronyms, and other pertinent information.
- For Sequence Searches Only
Include all pertinent information (parent, child, divisional, or issued patent number and serial number).
- For Foreign Patent Family Searches Only
Include the country name and patent number.
- Provide examples or give us relevant citations, authors, etc., if known.
- FAX or send the **abstract, pertinent claims** (not all of the claims), **drawings**, and **claims** to the EIC or branch library.

Enter your Search Topic Information below:

retrieving engineering and runtime object/data from an system with a multiplicity of individual automation objects
resotoation of representatives in an engineering system of the automation system.
supplying a type of respective representative to the eng system and creating corresponding representaitves for de types and each representative read out engineering information for the object
